

THE OYSTER'S PEARL

INDICTMENTS _ _ _ FROM CONTRITION

YOU ARE WHAT YOU EAT

🔍 After Malcolm's "divorce" from the Nation of Islam, a new picture of Elijah Muhammad begins to emerge. Malcolm's disillusionment was partially due to Muhammad's unfaithfulness to his own moral codes. It becomes increasingly clear that Elijah Muhammad is nothing more than a self-serving hypocrite, feeding off the false hopes of his followers ... The final impression of Elijah Muhammad is of a cunning old man who will stop at nothing, including the murder of his most faithful and trusted lieutenant.

THE CONSCIOUS CONSTRUCTION of the human persona and its cooperatives occurs in developmental stages, as do the designs of Operative Freemasonry. Both stand at the Adamic core of things

scriptural. The individual and social engineering espoused as sacred is based on disciplines that enable our best understanding and use of science and language. It is the stone upon which Moses and Joshua found Al' Khidr sitting. The same initiation found Abraham's Melchizedek, as well as Moses, Mohammad, Halaj, and The Son of Miriam (Rumi: *Mathnawi* #290).*

Those who die to self resurrect in the house of G-d; *in-the-world* but *not-of-it*, and seek alliance with morally upright folks everywhere. Knowing them by their fruit embodies crafts and skills mastered by our best architects, mathematicians, philosophers, scientists, musicians, artisans and engineers. Ideally, they are properly informed colleges of people who know how best to obtain and maintain morally operative order for the benefit of all and to the exclusion of evil.* This last condition specifically excludes charismatic liars who cheat on their wives. Rumi describes them as insolvent scoundrels living in borrowed robes (*Mathnawi* #670).

In sum, this brief proposes the following:

1. That NOI leaders remain in collusion with Deep State redactors; noting that FBI, sundry secret services, police, and immigration agencies, still refuse to cooperate fully with historians and other researchers regarding NOI records.
2. In addition to surviving an extremely suspect genesis, NOI leaders bequeathed a syncretic mass of befuddling cosmology and theology mired in capital crimes.

3. NOI founders were Dark Personalities whose wolfish sadomasochism consumed the substance and lives of unprotected sheep. (Chap 3-8; Appendices: *Psychopath Profile Notes*)

Transsexuals confirm this last indictment by example because it typifies a character trait of predators who disassociate from truth and proceed to destroy those of their genus who expose their lies. They openly express psycho-pathology by placing trust in a delusion, and do so at any and all costs to others. This coherent description also fits confirmed hypocrisy and describes designated survivors stamped '*good fruit mixed with bad*', the tree of which Adam was commanded not to eat. Before ruffling your feathers consider that eating forbidden fruit, when it's the only food available, becomes tradition, which in no way improves seed quality. Nature is then obliged to wall it off or expel it.

Brother Malcom exclusively ate NOI rations until he noticed grave contradistinctions learned by experience. This is but one of several reasons Warith Mohammad heroically white-washed his father's legacy of lies with universal principles. Sadly, in the eternal scheme of things that matter, white-washing a cornerstone full of lies merely makes the dead bones of duplicity within it acceptable. Once entrenched, contrition is never again considered by permanently biased inspectors and duped pawns caught in the downspout of its dark gyros.

🔑 Such a lapse in erudite scrutiny prevents the correction of errors that must be acknowledged before grace is restored and troops are moved to the front. Nonetheless, in G-d's infinite wisdom it can also become the oyster's pearl when you call it what it is because it enslaves you until you own it.

MYSTERIES & FORESTS

Like the mysteries of Orpheus, NOI's foundational worldview planks were cut from *Nisari-Ismaili* forests where Mani and Nimrud once hunted the souls of men. This doesn't mean much to our majority, but not a few initiatory protocols were adapted for game-play on Speculative Freemasonry's board and should never be attributed to Operative Freemasons. This depreciation of the ideal mostly occurred under Adam Weishaupt, a Jesuit master-infiltrator who borrowed these algorithms from Ibn Maymun; the Yazidi magus of Jewish extraction out of Kurdistan who fathered the notorious Fatimid cult.**

In sum, the Left-Hand Path of Persian Mysteries (think *Three Wise Men*)—derives from pre-Judaic Kabbalists married to debased Medes and Zoroastrians who studied *Harut & Marut*'s graduate program for politically correct *Gog & Magog* management systems. All hail from Babylon's child sacrificing basin in unclean Promised Lands. Which, by the way, includes much of modern Syria, especially the Golan, and extends far north.***

Popular cults have regally dressed Right-Hand Path managerial boards of organized religion in the semiotics that inform much of this pedantic misguidance. On this magog side of the divide, they perennially re-organize doctrinal positions pinned to numerous corrupt translations of scripture, along with misinterpretations and base interpolations that favor Zionism, the Internationale's codeword for Organized Elitist Plunder.

Modern bloodlines claiming to be Lilly of the Valley lega-

tees use the Jesuit *fleur-de-lis* as an identifier (Appendices: *Annunaki*). Over time, this massive but more palatable bowl of word salad was moored to syncretic Rome and even Mecca (Appendices: *Subversion of Islam*). With great skill they re-introduced pagan mythology and reiteratively use it to prompt exceptional minions into killing and/or enslaving ‘others’ over the useless nonsense of noble lies.

With heaven’s help I have plotted a course to the promised land of reason; hopefully, with repentant survivors in tow.

🔑 * JESUS AND JAMES were master architects according to Roman soldiers who left an oral tradition backed by documents that theologians commonly ignore. Mr. JT Bard, an oral historian with roots dating to Macedonia and beyond, assures me this tradition was bequeathed to *Operative Freemasons*.
